Warsaw, 6 February 2012

INVITATION

Fundacja Spełnionych Marzeń has a great pleasure of inviting children and teenagers who have suffered from cancer to participate in the Fourth International Olympic Games known as "Onko-Olimpiada".

The Olympic Games will be held on 24 – 26 August 2012 at the sports premises of the University of Physical Education in Warsaw.

The main objective of the Olympic Games is to break stereotypes concerning people with cancer and build self-confidence among children affected by the disease. An important element is also integration of children and their parents, as well as making new friends. For children, participation in the Games is not only good fun, but also a real sports challenge, especially for those who are awarded with medals.

Fundacja Spełnionych Marzeń has a great honour of inviting eleven children (child + 1 parent/guardian), i.e. maximum 22 persons from your establishment, to participate in the Fourth International Olympic Games known as "Onko-Olimpiada".

We suggest that the children and teenagers from your centre should come to Onko-Olimpiada in their own colours, so that everyone from a given centre forms a team recognizable to their fans.

Accommodation, board and attractions are covered by Fundacja Spełnionych Marzeń.

Contact person: Magdalena Skwiot – Zadrozna 603 551 676

Yours faithfully,

Tomasz Osuch
